

# HARUKI Whitepaper

The First Cosplayer Character in the Web3 Industry

**Network:** BNB Chain

**Total Supply:** 1,000,000,000 HARUKI

---

## 1. Introduction

In an era where digital art, pop culture, and blockchain technology are merging, a new form of identity is born — one that blends creativity, beauty, and community.

**HARUKI** is the **first cosplayer character in the Web3 industry** — a symbol of expression, artistry, and innovation.

More than just a token, HARUKI represents the evolution of digital identity — where virtual characters can live, create, and thrive on the blockchain.

---

## 2. The Story of HARUKI

**HARUKI (春希)** means “*spring hope*” in Japanese — a symbol of rebirth, creativity, and new beginnings.

She was once a young artist passionate about Japanese culture and cosplay. One day, while wearing a legendary **Kitsune mask** — the fox spirit said to guard the boundary between worlds — she was drawn into the digital realm and reborn as an **AI-powered virtual entity** living within the blockchain.

Now, HARUKI stands as the bridge between humanity and the digital Web3 world — representing freedom of expression, creativity, and the power of community.

---

## 3. Vision & Mission

### **Vision:**

To build the world’s first Web3 cosplayer character with her own digital ecosystem — uniting creators, fans, and technology.

### **Mission:**

- Develop **HARUKI** as a global Web3 character brand.
- Build a **creator ecosystem** for artists, cosplayers, and fans to collaborate.

- Launch NFTs, merchandise, virtual events, and partnerships under the HARUKI universe.

---

## ◆ 4. Tokenomics

Category	Percentage	Amount (HARUKI)	Purpose
Community & Airdrop	40%	400,000,000	Community growth & rewards
Ecosystem Development	20%	200,000,000	NFT creation, events, and platform growth
